

2026
OCTOBER 23RD-24TH

23rd Annual Bull & Commercial Female Sale
49th Annual Registered Santa Gertrudis Female Sale

Briggs Ranches | Traylor Division | Bloomington, TX

B R I G G S

FRIENDS, FELLOW CATTLEMEN, AND VALUED CUSTOMERS,

On behalf of the Briggs Family and our valued guest consignors, we are please to invite you to the **49th Annual Tri-Star Sale** and the **23rd Annual Bull and Commercial Female Sale**. We are proud to once again partner with Harris Riverbend Farm (David and Laurie Harris), San Jose Cattle Co (Perry and Abrian Bass), Pitchford Cattle Co (Darrel and Shana Pitchford), and Cavender Ranches. We extend our sincere appreciation to each of these outstanding operations for their continued partnership and commitment to making these sales premier events within the cattle industry.

Friday, October 23 – 5pm
49th Annual Tri-Star Sale

This year's offering represents some of the finest Santa Gertrudis cattle produced through our programs. Each lot has been carefully selected based on meaningful performance indicators, including weaning weights, yearling weights, ultrasound data, and EPDs, while maintaining the structural integrity and visual appeal that cattlemen and women expect. These cattle represent generations of thoughtful breeding decisions and are designed to strengthen the genetic foundation of progressive cattle operations.

Saturday, October 24 -11am
23rd Annual Bull and Commercial Female Sale

The Bull and Commercial Female Sale will feature a high-quality offering of Brangus and Santa Gertrudis bulls, all raised and developed by our consignors. Each bull has been extensively evaluated from birth, with a strong emphasis on structural soundness, performance, and overall quality to provide our buyers with dependable, functional genetics.

Following the bull sale, we will offer approximately 250 spring-calving females bred to Brangus, Hereford, and Santa Gertrudis bulls and expected to begin calving in March. This offering of Santa Gertrudis, Santa Gertrudis/Hereford, Brangus, and Super Americans (Santa Gertrudis/Brangus) heifers presents an excellent opportunity for producers looking to rebuild, strengthen, or expand herds with quality females backed by proven genetics.

As I look back over my years in the cattle business, I cannot recall a time when the markets conditions have compared to what we are seeing today. As producers look toward rebuilding their herds, there has never been a better time to invest in quality genetics and position your operation for the future.

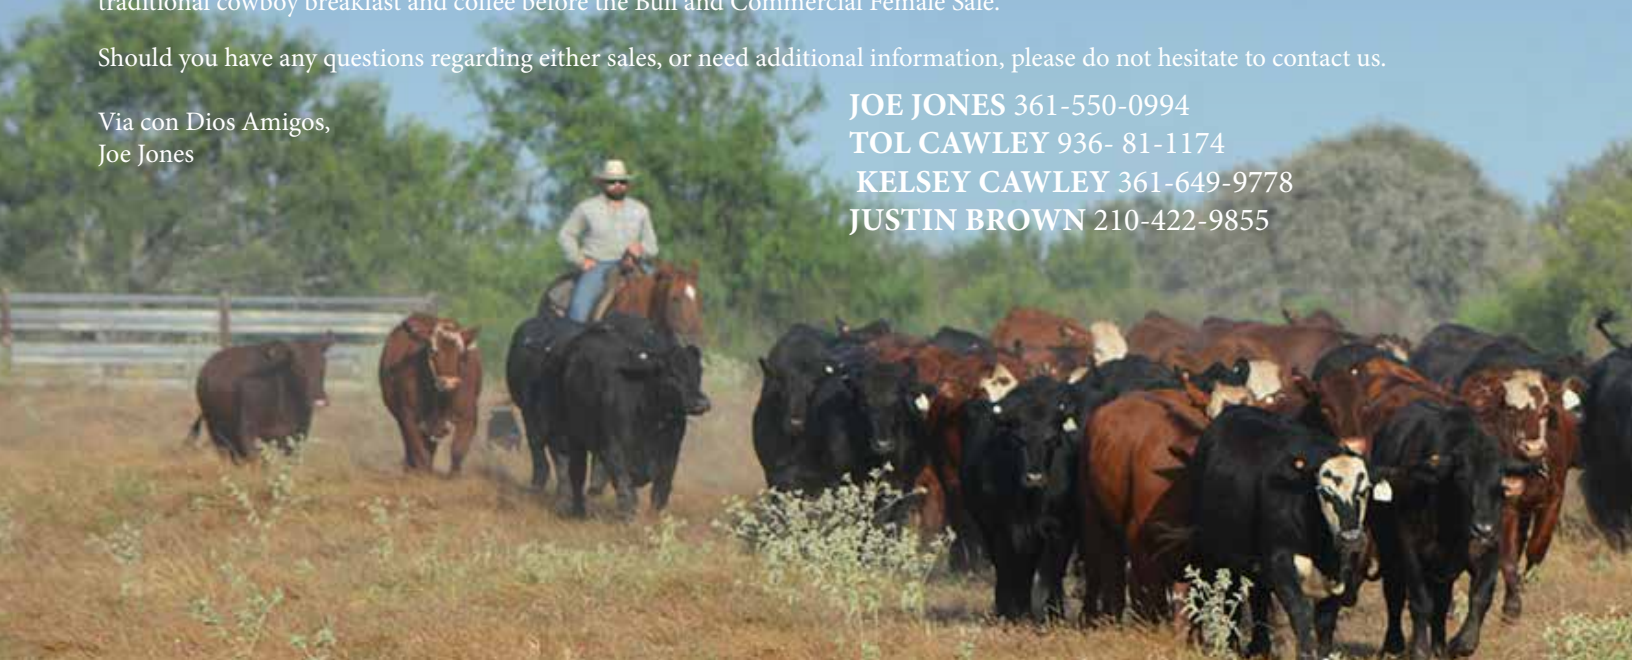

I would like to extend my heartfelt appreciation to our consignors for their shared commitment to producing and offering cattle that are functional, productive, and built to thrive in a variety of ranching environments.

We hope you will join us Friday evening following the Tri-Star Sale for a complimentary dinner and again Saturday morning for our traditional cowboy breakfast and coffee before the Bull and Commercial Female Sale.

Should you have any questions regarding either sales, or need additional information, please do not hesitate to contact us.

Via con Dios Amigos,
Joe Jones

SIGHT UNSEEN PURCHASE OPTION

If you are unable to attend the auction in person or watch DVAuctions internet broadcast, simply contact the marketing team:

- Describe your selection criteria and the type of bull(s) and/or female(s) you wish to purchase and your price range.
- You pay only the bid price, just as if you were bidding in person.
- We will call after the sale to confirm your purchase and you can confirm your payment method and arrange shipping.
- You decide if the animal meets your criteria upon delivery. If you are not happy with your purchase, you don't own it.

TERMS & CONDITIONS

Bidding

Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids and his decision on such matters shall be final.

Terms

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner. After 48 hours a maintenance fee of \$5.00 per day will be assessed until pickup, unless AMS arranges shipment.

Certificate of Registry

A transferred certificate of registry will be furnished to the purchaser for each registered bull or registered female once proper settlement has been made.

Health

Health papers suitable for interstate shipment will be furnished on all animals.

Announcements

Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

Breeding Guarantee

1. All animals are guaranteed to be breeders with the exception of: a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the

sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason.

2. Any bull which settles cows by natural service and passes a fertility test made by competent veterinarians, mutually agreed upon by the buyer and seller, during any six month period of trial (provided for in paragraph 2 of the section of these sales terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder. All partial interest bulls are guaranteed to produce freezeable quality semen.
3. Safe in calf females have been examined by competent personnel and are so guaranteed.
4. Exposed females have been exposed but are not guaranteed to be safe in calf.
5. Open females have not been served and are so guaranteed.

Pregnancy Determination

The females in this sale noted safe in calf have been determined pregnant by physical palpation. Our best estimate of service sire will be given in the case of the females with both an A.I. sire and a natural breeding sire.

Options and Privileges of Return or Adjustment

1. All claims for adjustment or refund must be made in writing within six months of the sale date.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the seller if in good condition and complying with the health requirements of Texas. The seller shall be entitled to a six month trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal is a breeder, the seller

shall at the option of the buyer replace the animal with another of equal value or issue a credit for the initial selling price. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation.

3. If a bull is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.
4. If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

Rights and Obligations

1. The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction.
2. No person connected with the management of the sale assumes no liability, legal or otherwise.

All EPDs and footnotes in the catalog are based off of the September 2026 Santa Gertrudis Breeders International (SGBI) EPD run. SGBI updates EPDs and percentiles on a monthly basis (please visit www.santagertrudis.com for the most up to date information).

Watch & bid online for FREE at

DVAuction

Broadcasting Real-Time Auctions

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

BRIGGS RANCHES SLAUGHTER HEIFER DATA

In today's cattle industry there are many top qualities that the commercial cattlemen look for and strive for on purchasing their replacement females or replacement bulls. A lot of those qualities consists of performance, structure, carcass data. These three things have been Briggs Ranches top priorities since the very beginning. We have been striving for years to be able to produce the top-quality bulls and females for the commercial cattlemen on structural soundness and performance data. For years, we have been collecting performance data and have set strict criteria on our bulls and females. For the last year and half, we have been focusing on feedlot performance and carcass data on our females. It has been a long time coming and the results are here.

DISPOSITION SCORING

A disposition score has been included for every bull selling. 5 stars being the best and 1 being the worst. Please note the explanation of our scoring system below and contact us with any questions you may have.

DISPOSITION SCORING TABLE	★★★★★	Extremely gentle, difficult to get out of the way.	★★	Nervous and moves away rapidly when you enter their flight zone.
	★★★★	Calm but moves away from you when you get close to them.	★	Extremely nervous and/or aggressive temperament. Thrashes about when confined and may attach the scorer in the pen.*
	★★★	Calm but moves away from you sooner than a 4 (Larger Flight Zone).		*There are no one star ranking in this sale as they have been culled.

CALVING EASE

If you're looking to add pounds at weaning time, take a hard look at this SR My Friend YN 7/20 son. This dark cherry red bull is thick made, big footed, and built with the kind of power we like to see in a herd sire. He started with a 72lb BW and went on to post an impressive 721lb 205 day weight. His performance continues with a 4.03 ADG, 1.11 REA/CWT, and 36cm SC

CALVING EASE

This SR My Friend YN 7/20 son is one that makes you stop and turn your head. He's packed full of muscle and power while still maintaining that eye-catching look and style. On the dam's side, he traces back to some of our top-producing cow families, giving him the genetics to back up his phenotype. Take him home and put him to work in the pasture, or throw a halter on him and take him to the show ring. Either way, we don't think you'll be disappointed in what this bull has to offer. CALVING EASE, BIG GROWTH AND CARCASS, +10 MILK

This big bodied, long spined son of the \$31,000 Silencer we own with Chimney Rock, does so many things right. Beginning with his near perfect easy going disposition and following with and impeccable EPD profile. He boasts calving ease, big growth, SC, carcass, Terminal Index and elite Fertility, all with +10 lbs. of Milk. His young donor dam will sell at Cavenders this fall. 7 maternal brothers by Express and No Doubt have averaged \$12,786 in past sale and we have only sold one maternal sister. She fetched \$17,000.

NS 7/26/26 to PC CANDY KRUSH 17/M1 ET (20202891).

DONOR POTENTIAL WITH PROVEN COW POWER! This powerful bred female has all the pieces to become a cornerstone donor. She combines phenotype, performance, and proven genetics from both sides of her pedigree, while ranking in the top 30% of the breed for WW, YW, HP, CW, and FT. On the maternal side, she traces to the Champion of the World female Miss 017/D7, a cow family that has been a stepping stone in the success of our customer Serbesa Cattle in Honduras. The consistency and influence behind this maternal line give us tremendous confidence in her future in the donor pen.

She sells bred to PC CANDY KRUSH 17/M1 ET, a full brother to 777 Candyman, the National and International Champion. This mating brings another level of proven genetics and added value to an already impressive package.

PROVEN IN THE RING — READY FOR THE DONOR PEN! Dreamboat has made a tremendous impact for Wendt Ranches, and his progeny continue to be in high demand across the country. Here is your opportunity to put one of his proven daughters to work in your program. This female has already proven herself in the show ring, earning National Class Champion honors in 2023. Now, with her show career behind her, she is ready to write her next chapter in the donor pen. Study her pedigree and the possibilities are endless, she can be mated a number of different ways with the genetic power to produce your programs next champion.

She should calve by sale time, giving you the opportunity to purchase a proven female with a calf at side and donor potential ahead of her.

This SR My Friend YN 7/20 daughter sells open and ready to breed to the bull of your choice. On the bottom side, she is backed by proven championship genetics as a daughter of National Champion Miss Freak 413D1.

Take a good look at this smooth-made, balanced female. She's feminine through her front end, bold in her center body, and puts it all together in an attractive, functional package. More importantly, she screams cow power and has the genetic foundation to become the kind of female you build around.

Check out this open female that is absolutely backed in the purple. Break down her pedigree generation by generation, and you'll struggle to find one stacked with this much proven genetics.

She is sired by 777 Candyman, the National and International Champion, and she carries many of the same qualities that made him so successful. She's long and extended through her front end, attractive in her design, yet still travels on a stout, functional foot and leg. This female brings together the kind of pedigree and phenotype we believe can work in more ways than one.

Looking for an opportunity to get ahold of some older, proven genetics? This female brings together generations of genetics that have stood the test of time. On the bottom side, she traces back to the famous Double TT cow herd, a program known for producing cattle that have made their mark. On the top side, she is sired by Red Solo, bringing in the influence of OU Superstar and Hatchet.

Come study this female and you'll quickly appreciate the cow power, functionality, and proven genetic foundation she brings to the table. With genetics like these becoming harder to find, she offers a unique opportunity to add a piece of proven history to your herd while building for the future.

Here's an SR My Friend 7/20 YN daughter that is complete made, feminine in her design, and sound from the ground up. She's built just like a lady should be — attractive through her front end, balanced from end to end, and traveling on a sound, functional foot and leg.

This young female has all the right pieces in place, and we believe her best days are still ahead of her.

HALTER BROKE BABY DOLL! This KR ADVOCATE 414/22 daughter checks off so many boxes. Take the time to study her pedigree — her grandsire and granddam on the maternal side are arguably two of the most influential animals in the Santa Gertrudis breed, adding generations of proven genetics behind this exciting young female.

She's an easy-keeping, deep-bodied female that is packed full of true meat and muscle while maintaining a feminine, balanced look. She combines plenty of substance and power with the structural soundness and eye appeal we look for in a female with a future. She's an easy-keeping, deep-bodied female that is packed full of true meat and muscle while maintaining a feminine, balanced look. She combines plenty of substance and power with the structural soundness and eye appeal we look for in a female with a future.

HALTER BROKE BABY DOLL! This young, halter-broke female is stacked with proven genetics from top to bottom. Sired by Nitro and backed by the influence of Copperhead, 740, and Mr. 500, she brings together generations of genetics that have proven their value in the show ring and pasture. This January show prospect is attractive in her design, sound on the move, and has the kind of presence that will continue to get better with time.

SR My Friend YN 7/20 crossed with Wendt's Dreamboat Ñ what more could you ask for? This female combines two proven genetic lines into one impressive package. She sells ready to breed to the bull of your choice, and the mating possibilities here are endless. With the combination of phenotype, maternal strength, and proven genetics behind her, she offers plenty of options moving forward.

HALTER BROKE! This young April heifer is started on halter and has plenty of potential ahead of her. She traces back to Copperhead along with some of Rocking A's best genetics, giving her a strong foundation to build on. She may be a little green today, but time is certainly on her side. Buy in on the potential, give her the time she needs, and see just where this one can take you.

You drive, we'll help steer

As a local cooperative, we share our profits with the Texans we serve. Since 2006, we've returned almost \$2 billion in combined cash and allocated equities to our members through our cooperative returns program. So, when you're ready to expand or enhance your ranching operation, try a partnership that really pays. **Together we're better.**
